

Adorable Baby Hamsters (Philadelphia)

Location **Delaware**
<https://www.genclassifieds.com/x-696880-z>

This posting is for Winter White Dwarf Hamsters. For each hamster you need a minimum of a 20 gallon tank, a wheel, a hide, and small bowl with sand in it (sand bath.) These hamsters are tamed, friendly, and social--they are not solitary like Syrian hamsters--thus, they can leave in pairs. For an additional hamster you should add another wheel and hide accordingly.

I have the following available to choose from at this time:

- (3) Agouti/Brown Baby Hamsters, Males, Very friendly, Can leave separately or in pairs
- (1) Champagne Adult Hamster, Male, Must leave alone or with his female mate (below)
- (1) Diluted Agouti/Cream Hamster, female, must leave alone or with her mate (above)
- (1) Orange/Cream Baby Hamster, Female, Can leave alone

Hamsters are monogamous, so once you keep a pair you may not add or remove hamsters. I also have four baby Campbell's Hamsters available. Please see my other listing for more info. If you're interested, please text or email me. I do not take phone calls.!
