

Musician Development and Artist Management

Location **Indiana**
<https://www.genclassifieds.com/x-697144-z>

Circle City Records USA is a full service Musician Development and Artist Management company.

There was a time when record labels committed themselves more seriously to developing the careers of their recording artists. Today, it is much harder to find a record label committed to this goal. When a major label signs a new artist or band, they presume the act has sufficient musical, songwriting, and performance talent, and are ready for the big time.

There are only four (4) Major Record Labels. It is tough to get signed to one of them. If your goal is to be a music professional, you better be prepared.

Are you a new artist or band that needs to be developed?

Musician Development is a combination of creative and business issues that must be dealt with to make your music, and the business surrounding your music, run smoothly.

Are you an established Artist or Band?

If the Business part of the Music Business is keeping you from writing, practicing, and performing, then contact us. We know the importance of Musicians being Musicians.

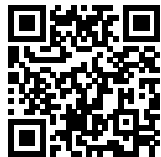

Circle City Records USA can assist with the following and more:
