Really big, really beautiful planter.

I'm not sure if it is made of fired clay and/or ceramic, or maybe a combination of the two.

Exceptionally heavy, does require a bit of effort to muscle it around. But attracts attention wherever it is placed, especially if located in direct sunlight.

16 inches wide, by 14 1/2 inches tall(!). A big beauty. You won't be disappointed.

Thanks for looking!
