German Shorthaired Pointer, liver colored, male, fixed, up on all shots, CD & JH title, 10 years old and in excellent health. His name is Flight. I have been caring for Flight after his owner passed away. Flight gets along with female dogs better then males. Flight is an alpha type male. He is not tolerate of puppies or children. He will protect the property and house. His original owner lived alone in Tamworth NH and felt safe with Flight from any strangers. I trained Flight to pick up things for his owner while at home. His owner had to use a walker. My mom has housed Flight for 2 years and I have helped her with his care. She is no longer able to have him and I can't take him. I hope not to have to put him down because I will not take him to a shelter to be traumatized and put down anyways. There is no adoption fee required. If you think Flight might be the right dog for you, please call me or text me. Please spread the word anyway you can to help me find him a home. Thank.
