

Web Developer for a Website Based upon my Facebook Group (Granbury)

Location **Nebraska**
<https://www.genclassifieds.com/x-697277-z>

I am looking for a web developer to help me create a website. I have a Facebook group that has been gaining traction. I would like to capitalize on this momentum by creating a separate website for my content. I would like to piggyback on the community content and conversations that are happening on the Facebook page. If you can help me with this, please apply at ?freelancingworks.info
