Good Morning/Afternoon. My husband and I am looking to adopt. We have been married for over 13 years and have a room ready for one or two bundle of joys. We have been foster parents in the past; however, we have decided to find a private adoption. We are open to a semi-open or close adoption with the right family. We are not necessarily looking for a baby. While a baby would be wonderful we are also there for the mom that maybe thought at birth she could handle it; however she wants to provide her child/children a better life. Baby or toddler. We will accept boys or girls and are open to down syndrome children as well. If you know of someone that might be a good fit please email us, Thank.
