

HO scale train engines, rolling stock amp buildings. A LOT (Mayfield)

Location **Ohio**
<https://www.genclassifieds.com/x-699194-z>

I am listing these for an older friend who is getting out of the model train hobby due to health issues. If I can sell these for him, there is at least 3 times more items than this yet. He will have many steam engines also then. Over 100 rolling stock right now and 30 some diesel engines. Most trains are powered. I have not tested these yet, but I do have a loop of track to try them out on before you buy. Most engines will be about \$20, some less and rolling stock will be \$5 each. Most are very nice, just a bit dirty. Some may be missing a coupler or have a broken step. Otherwise, pretty nice. No boxes for any of these. Please. no low ballers. I know what trains are worth and just want a fair price for my friend who is going through a difficult time. If you want, I can connect you with him. He just is not comfortable with people coming to his.
