

1026 Accepting New Patients for Natural Medicine (Laramie)

Location **Wyoming**
<https://www.genclassifieds.com/x-699469-z>

If this is an emergency and you need help today, please call 911.

If you've been waiting for a chance to get with the best in natural lifestyle-focused medicine Laramie has to offer, now is the time.

Acupuncture & Chinese Medicine is now accepting new patients, with new patient appointments available on Monday 10/26. This will be the last "new" patient time available until into November, though we can often make something work if there's a cancellation. Current patients are always welcome by appointment.

As far from assembly line medicine as it gets, a new patient visit runs about three hours, all one-on-one. .no sitting in a room twiddling your thumbs while a half dozen people run in and out. An initial visit is only \$80-, and includes a very extensive health history and lifestyle counseling, intake and treatment. On the first visit treatments usually include some amount of acupuncture.

Follow up visits usually run about ninety minutes and cost only \$50-. . .still one-on-one. Treatments usually get less invasive as time goes on; more bodywork, herbs/nutrition and exercise instruction.

Our focus is on preventing problems before they start. If problems already exist, priority shifts to resolving them before things get worse. Chronic issues generally take longer to resolve than acute

problems.
 Chronic complaints such as cancer, seasonal allergies, eczema, large lymph nodes in patients with a weak immune system. We have treatments and you choose. You can choose treatments with lifestyle and diet changes to "reopen" the "closed" area" and/or we break balance and allow your body to heal itself.

Lifestyle is the key. 99% of disease and pain comes from imbalance and 99% of imbalances are the result of inappropriate lifestyle choices.

Chinese Medicine is not for the lazy or uncommitted. I don't wish to waste your money or my time.

- if you want miracle, pray.

-If you want someone to kiss your boo-boo and make it all better, run to Mommy.

-If you want to "try" acupuncture, call someone else.

-If you want someone to stroke your ego and pocket your money, call someone else.

If you are one of the few, the 1/2 of 1% in Laramie serious about making positive change, who can handle honest and informed guidance, and are willing to run with the ball you're tossed, we're here to give you our best.
