Hey, my name is Matt, I go by Thought Product in the production world. Instead of giving you a relentless list of things I've done, who I've worked for, etc. let me just explain exactly what I've been offering companies, artists, entrepreneurs, etc. so you can get an idea of what I can do.

If you have yet to set up any of your social media channels, (youtube, twitter, instagram, etc.) I will set them up for you. Once they are setup, I can create and provide visual content for your social media channels via video, photography, & audio, which I am all experienced in. I can film/photograph any events, shows, promo videos, etc. you may have coming up and then edit/distribute that content onto your social media channels in creative ways. I also provide a software that drives targeted traffic to your Twitter, Instagram and Tumblr allowing you to reach 1,000's of targeted, authentic people a month without the touch of a button on your end. You can check some of my work out on my instagram at www.instagram.com/thoughtproductvisuals. This page has many short snippets and creative clips specifically made for Instagram and its a great representation of how well I create and manage content and use it to grow. I have many more examples I can show you but this is the idea. The overall goal here is to keep people paying attention to what you're doing by creating creative and quality content to show people. This is something I will be able to help you with in order to grow your business or whatever you may be doing. Please keep in touch If I can be of any help or if you want to speak any further and thank you for taking the time to read this. Feel free to call me anytime at
