I am soliciting bids for a 12 unit apartment building in south city. We are a real estate company from Illinois expanding into Missouri and our first project will be this building. I need bids from qualified trades that can handle this project in a timely fashion, I will need at least 3 references from the bidders and insurance certificates. I am setting up appointments for 10/12 and 10/13 only . This project will move fast with plenty more work potentially if prices are good and work is up to par. We pay immediately upon completion ! With 50% down on beginning of contract. Please know st.louis city codes and able to handle this project. Email me and I will respond immediately to you. Thank you and look forward to working with.
