Applicants also may be interested in getting your foot in the door right in time for leaf cleanups. We have hundreds of leaf removal customers and almost endless work during Fall and Winter leaf removal season if you would like to help with leaf cleanups. Additionally, we keep our very best crews busy during the Winter doing handyman and indoor construction work!

Mizzou Crew LLC is a local marketing company that specializes in mostly the marketing of landscaping and handyman type services. The name of our company is Mizzou Crew LLC. Our customers right now are mostly residential homeowners who need landscaping type work done around the house.

We are currently working with a few quality subcontractors and would like to grow our network to at least 10 by the end of the year!

We are looking for qualified subcontractors to partner with these projects during our busy season this Fall and into Winter 2015. The hours will change from week to week depending on how much work is booked. We also have a fair commission structure for partners who want to work more on lining up work for the other partners.

These partners will be in business for themselves and will be sent a 1099 Misc at the end of the year. Each partner must have and maintain insurance for their company and their employees.

Pay will be mailed or distributed to partners on the 1st and the 15th of each month, after it is collected and on a job to job basis.

Please reply with your name and phone number along with a brief summary of why you would be a great subcontractor. Also leave us a voicemail on our Mizzou Crew Recruit line at briefly describing why you would be the perfect partner.

Thanks you for your interest!
