

Bass player need for project group (Burlington)

Location Vermont
https://www.genclassifieds.com/x-700294-z

We have a strong rhythm guitar/lead vocalist, versatile drummer, and a great deal of experience playing gigs, booking, writing and recording.

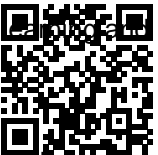

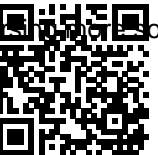

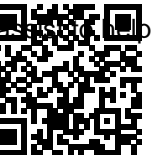

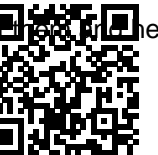

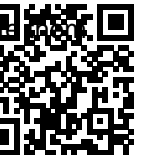

We rehearse once a week in a dedicated recording studio in Winooski and will be gigging again in the near future. We focus on band dynamics and have a very structured practice method.

We play rock-soul-funk-blues-jam-alt-bluegrass-R&B music.

A bassist with experience is all we need to complete this project and start playing out and making money.

You should contact me if you:

- are a team player
- have your ego in check
- have back up singing ability
- work dynamically with a drummer
- are reliable and committed to gigging
- rip on bass but can be a pocket player
- are willing to play and help write originals
- can rehearse 9pm to 11pm on one weekday per week.
