Looking for a music teacher for your kids who can come to you?

We offer piano, guitar, drum, and voice lessons in the convenience of your own home.

Our teachers make learning fun, and once your kids have learned the basics of their instrument, they get to start playing their favorite songs!

This past week, our students have played songs by OneRepublic, The Beatles, Katie Perry, Bruno Mars, and other popular artists.

Visit www.hendersonacademyofmusic.com to learn more..

We offer a free trial lesson so you and your kids get a chance to meet your teacher and see if it's a good fit before committing to weekly lessons.

-----Making Music Fun-----

If your kids have taken music lessons in the past and eventually got bored of only playing songs from a lesson book, this might be the perfect thing for you.

We've found that when kids are playing songs they know and like, they enjoy lessons more, practice more, and become more of a musician.

Here are a few songs that were played in our most recent lessons.

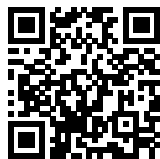

- Radioactive by Imagine Dragons
- Counting Stars by OneRepublic
- Single Beliefs by The Lumineers
- Only Me to the Moon by Katy Perry
- Monter by Lil Nas X
- Sonata by Beethoven

-----In-Home Lessons-----

If you've ever signed up for music lessons at a music studio, you know what a hassle it is to drive your kids to a from lessons every week.

Parents love the convenience of in-home lessons- it's just one less thing you have to drive to :)

Brent Henderson
