Hello, lovely people of CL!

I am offering my knowledge and skills in computer maintenance, repair and troubleshooting. If your desktop or laptop is performing slowly due to malware or other viruses, I can remove them!

My services include (but are not limited to)

- Virus removal
- Security protection
- Network & server troubleshooting
- Installing/replacing hardware parts (Hard drives, motherboards, processors)
- Tutoring services for those wanting to learn specific software/hardware
- Software installation
- Skilled in video/audio production, direction and editing.
- Proficient in Microsoft Office
- OS: Windows 2.0 through 10.

And much more. If you have a computer problem, and want a laid-back, reliable and funny repairman that does make house calls, I'm your guy. Hope to hear from! :)
