

# Dermatological Rep Opp Fall 2015

Location **Pennsylvania**  
<https://www.genclassifieds.com/x-701205-z>

Stanford University Dermatologists have just brought a New Dermatology Line to Canada and re-introduced to Seattle....created by the same Dr's that created Proactiv. We are seeking Seattle & Canadian business partners to help market and develop this territory with key leaders in the field. As an Independent Contractor you will work with top U. S. leaders to introduce this line and this business model. Previously the #1 line in Nordstroms for 5 years and #4 in the U.S. in this category of skin care, receiving multiple awards each year including the American Consumer Product of the year in 2013, (previously won by Apple), we are excited to develop the Canadian market. No inventory is required.

For more information and a "brief business overview", send an email about yourself and/or.
