This is a weekly rate for Dec 19 to Dec 26. A beautiful setting, lovely updated unit with no one above you and a great place to make memories. 2bd/2ba condo with loft, sleeps 8 comfortably, but also cozy for just 2. Enjoy the fireplace, mountain view, deck, access to full health club, full size laundry in unit, cable TV, internet. Conveniently located close to shuttle to/from Jackson Hole Ski Resort, delivers you to the Tram Bldg in Teton Village (closer than you can park). This condo is in the closest development to Teton Village without the expense of staying at the resort. From the condo you can walk to a restaurant, grocery store and the health club, and cross country ski right outside the door. This is an end unit which means an extra large window that allows for more morning and afternoon sun, nice natural light.

The condo is in a beautiful peaceful location, with mountain view across meadow, see pic. Eight miles from town of Jackson, and just 3 - 4 miles from Jackson Hole Ski Resort (on way from town to the resort). Everyone who has stayed here has loved it, and so do we. We love returning to JH and to this comfortable condo in such a beautiful setting with great ski resort access.

If you want to continually be in the middle of the bustle of the town of Jackson, this may not work. But if you want a peaceful, beautiful location in a comfortable spacious place with amenities for your vacation, this may be the place for you. New Years week is also available, see other ad. Discount available if you want both weeks. We love to use our unit, but unable to use it this year. I am not a realtor. Contact me and we can assess if this is a good fit for you.
