VIRTUAL OFFICE

A virtual office setup allows business owners and employees to work from any location by using technology, laptops, smartphones and remote internet access. We take your calls, forward them to you through our receptionist service, accept your mail, and let you give the impression of having an office at our facility -- while you work wherever you want!

SECURITY

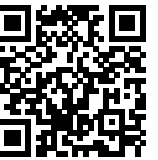

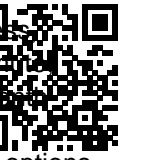

Don't give clients your personal phone or address. Protect your privacy and keep your identity secure by using our place of business as your mailing address. We can even set up a phone profile that we can forward to your smartphone or personal phone, so clients will call you without you ever having to give out your personal number.

BUNDLE AND SAVE

Add on meeting room or workspace time for a fraction of their regular cost with your virtual office! 16 hours of meeting room time or 7 days of workspace usage at nearly a third less than their regular cost.
