Wood Shop Coach (Denver)

Location Colorado https://www.genclassifieds.com/x-701574-z

The Master's Apprentice is seeking retired men to help teach young men basic wood working skills. We are a non-profit whose mission is to help young men develop the entry level skills needed to become apprentices in the skilled trades. We have a complete workshop and need volunteers to come in a couple hours a week in the afternoon to assist our staff in teaching how to measure, cut and assemble simple wood projects.
