Growing Childcare - HOME SWEET HOME (20112)

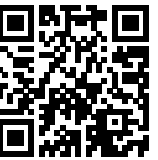

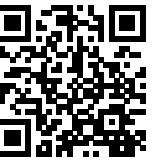

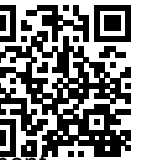

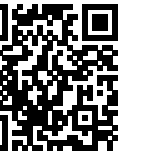

We are State licensed and part of the USDA food program

We currently have limited space available in our family oriented daycare.

20 years experience in Childcare, many years experience as a girl scout and cub scout leader, experience as a PWC elementary substitute teacher, loving mother of three.....your child will be at home in our loving, warm environment. You will see your child grow and develop quickly in our childcare. If you are looking for a low cost baby sitter or the cheapest daycare, we are probably not a good fit. If you are looking for a place like home with a loving family that will nurture your childs development then we are exactly what you are looking for. We teach respect, manners, basic skills, and focus on the overall well being of your child :)

We have great time with music and movement, reading, outdoor play, painting, crafts crafts and more crafts, circle time, dramatic play, show and tell, etc...

We practice our letters, numbers, days of the week, pledge of allegiance, colors, and shapes daily. We also do A LOT of crafts (we are big followers of pinterest and constantly search the internet for fun ideas) and preschool workbook pages, monthly themes, play doh, painting, puzzles, bead counting, and
