

REDUCED New Pics Male Baby Red Sided Eclectus Parrot, Handfeeding (Semmes, AL)

Location **Mississippi**
<https://www.genclassifieds.com/x-701926-z>

Female, hatched July 27th, has been re-homed.

Male, hatched August 9th, is available to experienced handfeeders only! If you don't know how to handfeed baby parrots, this little guy is not for you!

I handfed both of his parents myself, 23 years ago and they remain our pets today. I only allow the pair to breed (give them their box) every few years. I have his weaned older sister listed in a different ad.

Eclectus parrots are sexually dimorphic. The girls are deep red and blue/purple with solid black beaks. The boys are vibrant emerald green with candy-corn colored beaks.

\$600 Cash only. I can accept PayPal for a small additional fee to cover their fee. The fee will go UP if I wean him out!

If you wish to contact me via email, be sure to include your phone number. I WILL IGNORE all emails that do not include a contact phone number. Better yet, call me at (251) 645-9090.

Though I will gladly meet you part way, no, I will not ship.
