I replace brake pads and shoes on cars, trucks, and SUV's at a fraction of the cost the shops will charge you, check around and you'll see! Change your brakes before they wear down to the metal or you will end up needing new rotors and other parts. All my customers have left happy and have returned for additional services and I'm sure you will also. I have over 20 years of mechanical experience including being a mechanic for the military.

I also repair, replace, or service the following:

- Brake Rotors and Drums
- Brake Calipers and wheel cylinders
- ABS Sensors
- Bleed Brake systems
- Wheel bearings
- CV Shafts
- Air Conditioning systems
- Serpentine Belts
- Radiators and hoses
- Alternators
- Fuel filters
- Air filters
- Batteries
- Tune-ups

-Check engine lights
-Mass sensor
