I have 2 kitties I rescued from close to where I live, one is a sweet and sassy little girl we call snowflake. she takes awhile to warm up and prefers females and really takes a liking to human food :P and she's probably around 6 months old. Then we have a small kitten no more then 5-6 weeks old.. he's really sweet. we bottle fed him for awhile and now he's finally eating hard food on his own. we've been calling him sam... (he has a sister named frodo my sister may want but she's not sure yet) can text pictures. \$5 rehoming fee to make sure they go to a good home cell 208 eight o five
