My first Subaru but not my last! Love the All Wheel Drive, makes driving the snow fun and safe. Great torque and pick up with the Turbo! New clutch put in last year makes the stick shift super fun and smooth. All the scheduled maintenance was done at the dealership, I put in a new battery this spring. Tires are in good shape, Cooper Cs4's put on at 134,000 miles, so many years to go on those. Wagon can haul a lot, 60/40 split on the back seat so my skis fit in there (cargo cover included) or put a roof rack on the roof rails. Use the trailer hitch for even more hauling. You will love the All Weather Package with heated seats and the way the halogen fog lights illuminate the road. I will add in my iPod adapter so you're all set for road trips. ABS, Front & Side Curtain Airbags, Daytime Running lights, 17 inch Alloy Wheels, 6 CD Changer & 6 Speakers, Cruise Control, Tilt Steering, Trip Computer, Power Driver's Seat, Power Windows, Remote Entry, Dual Zone Automatic Climate Control.
