Nice little boat.  
Needs some new wood for the seats and console and a little fiberglass work near the trailer hook.  
13 footer with a 18-25 horse engine not sure of exact size. Engine runs on spray. Have not tried it on the tank.  
Have the console with controls for the motor as well but wood is bad.  
Can still be used as a template if you want it.  
There is a little split on each side of the trailer hook on the boat the rest is fine.  
The trailer needs new tires and one leaf spring to go any distance.  
Open to cash or trade offers.  
I like hunting and target equipment.
