Send us a brief email whenever it is convenient, we will respond as soon as we possibly can, generally within an hour!

"Maria has made a wonderful change in my son's academic life. He started tutoring in preparation for his Spanish I midterm test and we decided to continue seeking her help thereafter. She has become part of his academic success. Maria is very patient and finds the student's strength to better understand the topic on hand. My 15-yr old son is comfortable to make questions and uses his time wisely. We will continue to seek her help because she is also very reliable, she will work with the student's schedule the best way she can. We have only positive remarks to make about Mrs. Maria, she is a great Spanish tutor." (teacher, lesson, class, classes, lessons, tutor, tutoring,)
