The photo shoot

I like to take candid pictures while folks are relaxed and being themselves. Wear what you want. Bring an additional change of clothes if you want. We get to hang out for about 3 hours at a location that might be special to you, a nice park or a neat downtown nook.

The package

The special rate for the photography package is \$125. The 15 digitally edited photos will be delivered as high resolution files via email or dropbox.com within 2 weeks of the photo shoot. You will have personal use of the photos to share with family and friends. Payment accepted in cash or paypal.

About the photographer: Hyatt

Having worked at a camera store and being the designated photographer for friends and family, Hyatt recently began providing engagement and portrait photography services in the Baltimore, Annapolis and Columbia metro area. On some occasions, Hyatt might be accompanied by his lovely assistant and fiancée Amy.

Check out some of my pictures on flicker: <https://www.flickr.com/photos/133492277@N04/sets/72157655566027335/>

Do you need basic editing, title screen/credit crawls or color grading for your video/film projects? My name's Dennis and I've been tinkering with Adobe's creative suite for years. I've only released one short film to date to show for my editing skills, but I have a keen eye for visuals and timing/pacing and would love to work with you on your film project for cheap as a means of building my own portfolio. It's a win-win!

Rates will be rather negotiable, but I'd say a starting point for basic projects will be around \$15 an hour - well below the average for film editors in the Northeast. And don't worry, I'm honest, and certainly not a slacker, so you I'm not going to nickle and dime you on wasted time, I'm just asking for a little compensation for my time. If all

of this sounds good, give me a reply, let me know what your project needs, let's do business!
