

German shepard mix Hound (Bedford)

Location **Ohio**
<https://www.genclassifieds.com/x-708713-z>

I have a german shepard mix w beagle. His name is Milo. He is 9 months and very energetic. I recieved him from a nice lady that was too busy for him and he was always in his cage. Well when we brung him home he was just too active for kids and my other dog. He is not neutered so he does alot of humping. Other than humping and being very active he is a wonderful dog. Havent had any accidents in the house other than when he was scared coming in. I am only willing to give him to a wonderful family with a fenced in yard so he can run and play freely. I am looking for a trade. I want a female dog small to medium size active but not too active. I would love a puppy but will take young adult on account of i have a 2 year neutered american bully. Im jus looking for Max and my twins a wonderful playmate. Max is more laid back he acts more like a horse with my kids. If you dont have a trade there will be a small rehoming fee, so i can go to the shleter to rescue a dog of my choice comes with cage also. Please call or text 216(Two.00)
