

SIDE EFFECTS FROM DEPRESSION MEDICINE (Thomas Jefferson University)

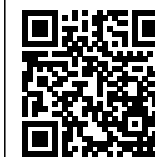

Location **Pennsylvania**
<https://www.genclassifieds.com/x-708796-z>

Have you EVER in your life taken a medicine for treatment of depression that caused side effects?

The Mood Disorders Program at Thomas Jefferson University is conducting a research study to evaluate how difference in our genes can explain why some people have more side effects from a depression medicine.

If you are included in the study, you will receive:

- *An evaluation by our doctor at no cost
- *Compensation for time spent and for travel expenses
