I have a band that has strong male lead vocals and an excellent guitarist, drummer, and bassist. We are looking to add a female vocalist to the mix (as well as a keyboardist, if you know of anyone - preferably female). We play mostly rock/pop. We have played some great local venues, large private and charity events, and weddings. We have a strong connection to an agency that books their bands for weddings and large events, and the gigs will start happening.

I would prefer someone that appears to be in the 20 to 35 year-old range. On-stage experience is a plus, but not a necessity. Looking for someone with a strong voice and a sexy, captivating stage presence.

Please respond with a link where I can hear/see you singing.

Thank!
