2009 BMW X5 3.0 Xdrive, with 7 passenger seating that is in great condition inside and out for sale. It has 92,000 miles on it and the milage will change a little due to fact that I do drive it some.

Everything on it works and it is in great condition. It is an Xdrive which means it is all wheel drive. This car drives great.

I have it priced about \$3500 below above average book. This car is 6yrs old and it is well above average for the age.

If you are looking for a great used car, you will not be.
