Sammy is a sweet cat who has been living outdoors after his owner moved and left him behind. He was recently neutered and vaccinated. He has been given a de-wormer and flea medicine.

He is a very nice kitty and will be a wonderful pet. He consistently uses the litter box.

I have several cats of my own so I'm unable to keep him. I am fostering Sammy in my office temporarily; however, this arrangement is very short term.

I am looking for a responsible and loving caretaker to adopt Sammy. There is a \$45 rehoming fee to defray the cost of vetting.

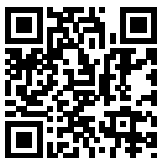

Please send me an email and tell me something about yourself and the home environment you could offer Sammy. Or, you may call my office and leave a voice message and I will return your call promptly.

Looking forward to uniting Sammy with a wonderful person and his forever!
