5 years ago exactly our very loved dog went missing, unsure if he was taken or ran and got lost as we were new to the area - Garnet Street in Fitchburg. He slipped out of his harness (or it was taken off of him) so he didn't have tags :(I know this is a long shot but not a day goes by where I don't think of my little guy "Morgan"

If you have him or at least have seen him, could I please just be updated on him? Thanks in..
