Hi there, I am a local web developer looking for part-time work (compensation or equity if I find your idea appealing) for website, company, Intranet maintenance, or web development in general. I can build your web tool/start-up idea from start to finish. I have over 12+ years experience working with PHP/PHP5, MySQL, HTML5, CSS3, Adobe Creative Suite, JavaScript, jQuery, AngularJS, all PHP frameworks, databases/database design, and server maintenance. I am fluent with Git and object-oriented programming. I have outstanding recommendations in the area and am extremely organized. The code I write is aligned well with comments as needed. I am conscious.

Available on request: Resume, LinkedIn, and portfolio.

Please email for a fast reply. Thanks and I look forward to working with!
