Complete Agua-Vu DT Underwater Viewing System! Virtually NEW!

For over a decade Aqua-Vu underwater video cameras have been the #1 brand trusted by professional and recreational anglers alike. This Aqua-Vu "DT" model was the flagship of the companies cameras for many years due to its rugged longevity and field dependability.

During this period no other piece of consumer marine electronics has offered water sport enthusiasts more fun and entertainment.

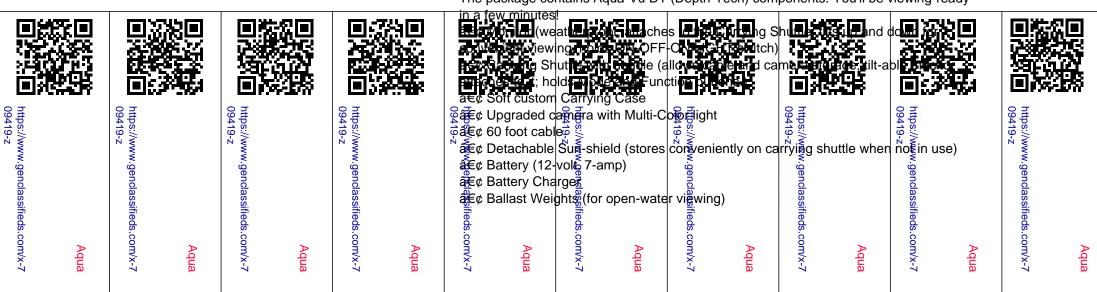

Ideal for viewing live underwater footage from your boat, raft, any other water spot or for use in permanent ice fishing shelter applications. Many other uses including aquariums, scuba divers, chimney inspections, well inspections, and the list is limitless.

This unit has been used about 4 or 5 times and held on to in the hopes and dreams to use it more. Less than 20 total hours. Looks and acts brand new in every way. Flawless! Show room quality and paid easily over \$600.00 for all.

Why pay full retail, tax, or shipping when this pristine unit is available for half price.

Features:

The package contains Aqua-Vu DT (Depth-Tech) components. You'll be viewing-ready

• Front-viewing Fin (keeps camera forward-looking as it's pulled through the water)

!!!!!Plus in addition to the standard accessories you have:

• Large Magnifying Lens for easier viewing

• Extra battery for total of two (2)

• Custom made weighted and articulating tripod

• Two (2) extra custom carrying cases for a total of three (3)
