Field Agents for YouTube Show (St Paul)

Location Louisiana https://www.genclassifieds.com/x-709441-z

I've created a show on YouTube with the basic premise of mythology in the real world. I'm the tech guy giving out the info. You and maybe some friends are the Knights, field agents around the world tracking down creatures and finding evidence of magic.

A statue in town, a fallen tree in the park, a symbol on the ground. You can use anything, make something, or I can add something during editing. I just need someone who is maybe willing to act in public and has some free time. Depending on what you do, it can take an hour or make a day trip of it. It doesn't have to relate to videos I've done and I am happy to help with ideas.

This is a remote, non-paid, voluntary position, preferably making one video a month. You don't need any fancy equipment. It can be recorded on your phone, then just send it to me. You are on your own, unless you want my help. You can check out the website below to get an idea of the show.

MythManual.com

The knights section has an example of the most basic video you can send in but I prefer you do the narration.

If you're interested or want more info just reply to this posting. Andrew Jacobson Minnesota, USA
