PROMOTE Film Theater

The way Tugg works is that, for free, anyone can host a screening at any theater in any city. Once an event is listed, it is automatically PROMOTED to the screen. ANY TECH. YOU CAN USE. I have not, as yet, been on a single type video. It's a word of mouth. I have a book and a film on all shore posters, Instagram, Google +, and advertising, etc. I don't have to pay for it. I don't have to make a video. Nothing to pay, as I'm not using YouTube.

Basically, how Tug works is that a certain number of people (usually around 75 +/-) MUST reserve a ticket (online) to the specific film screening in order for the film to actually screen. Once the RESERVE number is reached, the screening will happen. You can see more tickets after the reserve is met to preferably SELL OUT the screening. When the screening occurs, the theater makes money, Tug makes money, and I make money, then you make money.

If you can host this film (or get multiple people to host the film) in any city anywhere, and through marketing, etc., get enough people to see it (you get the reserve tickets sold, and the film actually screens), when the money comes in I will pay you 50% of what I make. The last screening in Las Vegas, which I hosted myself, earned me \$360. That would give you \$180. Whatever profit the film makes for me (from Tugg), you get \$50 of that profit.

You will have to have some patience. The entire process can take a few months to get the money, but, the more screenings that happen, the more money you will get. You can host multiple screenings simultaneously, as long as you can get those reserve tickets sold. You should be someone who has many many contacts, and a following, and a way to convince people to see this amazing film.

It's that simple and a great way to make money. This is a legitimate post

If you get others to host the screening, you can work out a percentage of what you make with them, and share your profits with them.

Anyone into Science Fiction, Aliens, UFOs, Paranormal, Creatures, Visual Effects, Monsters, B-Movies, Cult Classic Movies, Star Wars, Star Trek, X-Files, etc. will like this film. Many of the people who have enjoyed the film were Latinos, Europeans, but everyone will enjoy it. It's not rated, but would probably be PG. It is very professional and has a 5.1 audio track, which looks and sounds great even in the most quality.
