I do photography for a hobby. I thought it would be cool to take a couple of creative pics for Halloween. I also post music on soundcloud as a producer. If some of the girls end up with some pretty cool pics, i could post a pic with a song or two. With your permission of course. I live near MSUM and I'm also a student there. We could meet up around there and take the pictures there or for \$7 i could meet you at your place or where ever. I'll be able to email you the pictures. Email me or text for appointment or if you have any questions. thanks

Equip: Canon T3i with 50mm prime
