I've been playing guitar for a couple years now and would like to play with another guitarist and form a metal band. I've been playing music for 16 years as a drummer in bands, so I have great timing and experience performing out. I have a practice space with drums available for tryouts. I prefer to find another guitarist first to start the writing process. I'm in my late 20s and don't really care about age as long as the music is good and having fun playing it.
