We are seeking a passionate Graphic/Visual Designer to work closely with the marketing team and web development team on our marketing and advertising campaigns. We are specifically eyeing someone who is comfortable working with developers to get his or her design implemented, gathering feedback from the marketing team, and iterating to improve the designs.

Duties and accountabilities include: working closely with the marketing team; developing design specifications, style guides, among others; actively participating and contributing to design brainstorming sessions; providing back up to marketing design needs on an ad-hoc basis.

If you have a deep understanding and knowledge of UX Design principles, graphic design and web standards and are comfortable presenting work and justifying strategic design decisions, contact us today!
