

Pitbull lab mix puppies (Bear)

Location **Delaware**
<https://www.genclassifieds.com/x-710051-z>

I have three blue females left that need great loving homes.
 There is a rehoming fee of 200\$.

They were wormed on Tuesday but I will be sending another worming packet with them and they need to be wormed again on the 10th of this month and then again two weeks after the 10th. The packet will do both wormings. They turned six weeks this past Tuesday (Born September 15th). Please before contacting me know what your getting into with getting a puppy they are alot of work. You will have accidents to clean up and will have to take time to train them. For anyone that is ready for a puppy they are sweet little girls. One of the three is all gray, One has a little white on her chest and a couple feet, the last one is all gray and has a little white on a her back feet.

Mom is a blue pitbull and dad is a brindle pitbull lab mix.
 The pictures are about a week old so they are a little bigger now.
 Any questions or if your interested text or call

ONLY IF YOUR SERIOUS.
