

NEED PIECE OF PLYWOOD CUT TO SIZE (Cambridge)

Location **Massachusetts**
<https://www.genclassifieds.com/x-710073-z>

Kind of an odd request, but I don't own a car or a table saw. I have a table base without a top, and want a piece of plywood cut for that purpose. The size would be 30" X 39" and the plywood would be 1 inch thick. This can be old stock, something you already have lying around, so long as it isn't warped. It doesn't have to be perfect or veneered or anything like that, as a table cover is going over it. I'd also have to have it dropped off at our home on Essex St. in Cambridge.

This is a simple job, two cuts and a drop off, no sanding, staining, etc. required, just a piece of plywood. If this is something you'd do for me, let me know how much? Thanks.

p.s. If you have an old wooden table top close to this in size, that would work!
