

Please if you care at all about your life, your families and friends please copy, paste and spread this message that we cant remain silent anymore and our National Govt needs to start efforts within Schools, churches and on TV, Newspapers to send message of Hope, and that Life Matters to all and Violence is wrong and spreads much harm, sadness to many people across the World!!! Also, National Hotlines should be setup, publicized to help anyone who needs help and someone to come along side that person and give them Professional Care and Support at any time, 24 hours a day etc... Please people we can curb the senseless random acts of Violence in the World but it will take the majority of Americans, money, advertising, teaching some morals and responsibility to our kids and all of us again!!! WE are a divided nation who needs to Unite and say no more, we all need to be responsible for our own and our Childrens actions, we need to teach our Kids what is right and what behaviors are wrong like bullying, teasing or putting down others, that mental illness is a disease as well as drug use etc and that we should respect our bodies, life and respect and treat all others with care, respect!!!!

Please spread this message of Love, concern and respecting others and copy this on Facebook, and other Craigslist sites and write your senators and Leaders to start coming up with solutions and training for teachers and parents to teach morals again!!!! Thank you all, God bless you for your efforts and time in this very very Important matter which we have been ignoring way too long
