We are looking for a good, safe, clean home for our 1 yo puppy. He is a mix of Lab and Pit, has been nuetered, and has had all of his shots. He was also micro chipped when he was nuetered and registered with safe home. He has had some slight behavior issues towards my wife and we have decided that he needs a better home where he can run and get more exercise than we can give him with our work schedule. Please give us a call or text if interested
