Hey! I'm an Austin-based touring and recording pedal steel player (Israel Nash) available for remote sessions, in-studio sessions, one-off gigs, or short-run tours. I work in Pro Tools and have a studio at my disposal. I have a more modern, effects driven style but can also do more traditional stuff too. I also play bass, guitar, mandolin, and can sing. Please contact me for more info and rates.

Cheers!
Eric
