I have a couple BRAND NEW factory GM hoods for 1986-1993 Buick Riviera models. The one hood is perfect but the underside has been painted a dark blue color. The top is still in factory primer. \$150 for that one. The other is full primer top and bottom but does have a few small dings that will need to be touched up before painting, no big deal. \$100 for that one. These hoods are long discontinued and not made aftermarket, so this may be your only chance to get one short of finding some rusty piece of crap in a junkyard that would probably cost you \$50 or more and need a lot of work. These hoods are GM part# 1642458.
