Location **Washington**

I share a split level with another young couple.
We're all very clean, quiet people who like to play board games.
I just got a job across the country, and have to move mid-lease.
The downstairs suite includes a large living space and bedroom with a separate entry,
A full bathroom with laundry in it, a garage space and access to a large kitchen upstairs!
The section of the home is completely isolated from the main floor.
We're asking for \$550/month great for a single, couple or small family.
Inclusion of a picture would be highly appreciated, but isn't required.
