

Childrens Beginner Guitar amp Piano Lessons (Burlington)

Location **Vermont**

Over 10 years experience teaching kids ages 4 and up. Also teach Ukelele, Bass and Drums.

Plenty of happy references in the area.

Method of lessons is to mix tradition with modern music, for example, working thru a method book for half of the lesson, and then working thru popular songs and TAB and Youtube for the rest.

In both guitar & piano, I focus on developing a strong sense of melody for the students by learning familiar tunes in the right hand (piano) and horizontally along the neck (guitar).

Please reply to this email via Craigslist with FUN LESSONS in the subject so I know you are not one of those awful scams :-)

THANKS! Have a nice!
