We have two litters of kitties. The first one is pure bred munchkins, I have two short legged babies and 3 long legged. The 2nd litter is Scottish fold/munchkins and I have 3 short legged babies (1 with folded ears and short legs). Reserve one now before they are gone, and please do your research. These are very special kittens and they are not cheap. Thank you! Check out our Facebook and Instagram: Montana Munchkins
