We have been working on helping the people of Nepal through film over the course of the last year and a half, with our work on the Karma Documentary. We have hit many financial walls along the way, as we work to balance their immediate needs with their need to have their story told.

What can you do to help?

Visit: The number one thing you can do to help Nepal is to travel to see it for yourself. So much of what is needed in Nepal revolves around influxes of tourism. Almost every way of life in Nepal is affected by the ups and downs of tourism. This is not in the budget for all people, so. . .

Donate: Even small donations help us work towards getting out their story with the film and to send money to the individuals and families we know it will benefit most. If you have checked your coffee fund, your rainy day fund, and even scoured the couch cushions and there is nothing to be found that you can spare. . .

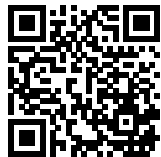

Share: Help get this out in your networks, where it can reach other people that can help.

If we all do what we can when we can do it, we are all part of the movement to make our world a better place.
