Hello! My band is in need of a vocalist. We have been playing for 5 months and we have laid out 6 original songs (lyrics already composed) and a few covers. We are nearly ready to release an 5 track EP but we need a vocalist to bring it all together...our genre is a blend of classic and modern Hard Rock with a touch of a Blues influence. Our inspirations include AC/DC, Accept, Ratt, Jet and bands of that nature. We are aiming to enter a band contest in mid December so we need a vocalist asap. We practice in Hopewell twice a week and looking to practice 3-4 days a week. We are all ages 21-24. Contact me via email or TEXT at 804-two one six-one two seven one if you are interested or have any.
